

SELF-DRIVE MAP AND DIRECTIONS TO ZINGELA VIA COLENZO

SOME VITAL SURVIVAL TIPS

- ▶ Have a general idea of where you are headed. You will need to pass through the one cowboy town of Colenso so make sure you know where that is!
- ▶ The road to Zingela is plotted on Tracks for Africa so if you have the programme do use it, otherwise **please do not punch in the end GPS coords of the camp into your trusty machine as it WILL take you to the opposite bank of the Tugela**. There is nothing worse than smelling the braai and not been able to get to it!
 - ▶ The Colenso gun site is en-route to Zingela so follow the signs **BUT** do not follow the final one titled "Site of the Guns".
 - ▶ This map is for those wanting to self-drive. The rocky terrain is suitable for high clearance horses or vehicles only. In summer, a diff-lock or 4x4 is essential for muddy conditions. It is an excellent road for the off-road enthusiast and bad if you are not!
 - ▶ Cell signal is very sporadic once off the tar road and smoke signals not allowed in dry-valley bushveld so you are on your own!
- ▶ Finally road signs aren't used in this part of the world except as building material so don't look out for them.
 - ▶ Refer to the map and old fashioned written directions and you should be fine.

DIRECTIONS

Turn off the R103 into **Colenso** Town. The main road through Colenso is Sir **George Street**. Travel down it and look for **West Street**. It is also signposted **Inkanyezi Township Tugela Valley** and **Gana Hoek**. Refer to to points on your map.

POINT 1: SET ODOMETER TO ZERO.

POINT 2: At the end of of this 100 m road you will turn right into **SASAR Street** heading toward the Colenso Gun site.

POINT 3: Go over the railway line bridge and turn right immediately heading toward **Inkanyezi township**. Travel 2.2 kms on the tar road.

POINT 4: At the stop street you will find a faded **Gana Hoek** sign, turn left here onto the dirt road.

POINT 5: Faded sign at the grid. Good road ahead but go right as per map. When in doubt follow the white road til point 7 where the good road ends.

Point 6: Some guests use Doreens as a transfer point as it is close to the end of the good road.

Point 7: You may well weep if you turn right at this indistinct y-junction as you will be lead down the infamous Bloukrans hill This track leads to Weenen. What goes down has to come up so **rather bear LEFT!**

Point 8: There is a detour round the dam at present so your kms may be slightly out. This is due to a badly eroded section of road between point 7 and 8. Bear RIGHT after the dam detour. You will continue to descend into the dramatic Tugela valley. Check your KMS so that the rest of the readings make sense!

Point 9: As per map.

Point 10: Go straight towards the river don't take the first turn left or the next one right.

Point 11: Car park **Welcome!**
